

Handicare Outdoor Stairlifts

Our outdoor straight and curved stairlifts
are resilient to most weather conditions

If you need to climb stairs to access your front door or your garden,
our specially designed stairlifts can give you the freedom to enjoy
the outdoors independently again!

Handicare 1000 for use outdoors

Our 1000 straight stairlift is well-established for use indoors and with a handful of modifications to improve its capabilities to withstand most weather conditions, it's the perfect solution if you have steps to the front or back doors and need access to different levels of your garden.

Reliable and easy to use

- Slimline aluminium track with hidden gear rack and two parking/charging points
- Manual swivel seat and footrest fold away to allow more space on the steps
- Retractable or Velcro seat belt
- Remote parking and calling
- Safety sensors
- Heavy duty version available up to 160kg
- Adjustable seat height
- Easy to use paddle control

Outdoor features

- Painted plastic parts for improved UV protection
- Plated fasteners for improved corrosion resistance
- Coating applied to main controller
- Water resistant cover for protection of seat and powerpack (IP44 rated)
- Slate-coloured upholstery and rubber footrest mat for improved endurance and safety
